Hold Alt while mouse is over Project window to open vFavorites:

Drag-and-drop assets or folders there:

Click a folder in vFavorites to open it, click an asset to select it, double-click a script/shader to edit it, drag a prefab into scene to spawn it

Reorder items by dragging them

Click the cross button to remove an item:

Click the button on the left to undo edits, move the slider to change size of rows:

You can disable vFavorites in Tools/vFavorites menu
